Mr. Nicholas Aggor
President & CEO
Math Teaching Series
15101 Pennbrook Place
Riverview, MI 48193

Dear Mr. Aggor:

I read with great delight the story of how your concern about your children's education led you to create the Math Teaching Series. You are a great role model to parents everywhere, and your example takes on even greater significance in Michigan because we have set our sights on helping all of our students improve their math and science skills.

Thank you for your leadership in this area and for your commitment to our children. The task of raising and educating Michigan's next generation is one that requires more than just our education system. It requires all of us to find our own unique way to be a part of the solution.

Michigan's future is inextricably linked to our children's ability to learn and grow. And your inspiring story reminds us all that we have the capability to make that future bright.

Sincerely yours,
